## **How Does No More Cankles Work?**

No More Cankles tackles the problem of cankles from different angles, addressing the root causes and providing effective solutions. Let's take a closer look at the methods used:

### **Method #1: Diet and Exercise**

The program emphasizes the importance of removing a specific food from your diet that is responsible for causing cankles. By replacing this food, you can make the process of getting rid of cankles much easier. Additionally, No More Cankles provides a daily exercise plan that targets the area around your ankles, helping you shape and tone them quickly.

### **Method #2: Improve Blood Circulation**

## **Method #3: Over The Counter Supplementation**
